

MINI-PORTER-CYCLONE

For Fine Powder and Dust ★No Filters!!

Mini Porter Cyclone

MP-38CF12 (PAT.)

Can be Connected to
ANY Vacuum cleaner!!
Easy to Move!!

Centrifugal Action of Mini Porter Cyclone

TROUBLES IN HANDLING FINE POWDER??

Mini Porter Cyclone separates powder and air by centrifugal force and sheer dead weight - with no filters. Eventually, the powder is dropped into a tank and accumulates while the air flows into the suction machine. When handling flour, for example, the efficiency is almost 100%. This function reduces maintenance and helps to save expense and time.

Mini Porter Cyclone ★ Silent Cleaner

MP-19

SC3T-19

LIGHT AND COMPACT!!
Great for Cleaning
Office Automation Equipment -
Dust, Toner and stuff.

MP-19: The smallest in the Mini Porter series.
