

SILENT-CLEANER

● Jet Ejector

Jet Ejector, the heart of the Silent Cleaner, is the device that creates strong suction. There are no rotating parts so no breakdowns.

● Silencer

The silencer keeps exhaust sound low - 60dB with SC30-32S.

● Safety Valve

Safety valve prevents sudden increase of vacuum and breakage of tank, which is caused by air pressure rise or hose obstruction.

● Inner Filter

Inside of Silencer, is glass-wool-made filter. This filter prevents dust from going outside. Please order "fine dust filter" for fine dust.

● Powerful Models

All Model can be custom ordered as Powerful models. Please put "G" at the end of model when you order. EX: SC30-32SG, SC60-38SG

★ Silent Cleaner

SC30-32S

■ Weight:11kg
■ Height :950mm
■ Width :450mm

Exhaust Sound 0.5MPa
(5kg/cm² per hour)
SC30-32S 60dB

■ Performance Chart (SC30-32S)
