COMBINATION EXAMPLE WITH MINI-PORTER-CYCLONE MP-19

FEATURES

JET EJECTOR

Jet ejector is the heart of the SILENT-CLEANER, supplies a strong suction. Since no rotating part is contained, no worry for a breakdown.

Adopted outstanding performance of WONDER-GUN system that is well received in all field.

SILENCER

The silencer keeps exhaust sound low ... 58dB — 60dB (0.5MPa (5kg/cm²) at JIS 1m).

No need to shout over the cleaner anymore. You can clean a place pleasantly with SILENT-CLEANER.

INNER FILTER

Glass wool made filter in the unit keeps dust from not getting blown out. As an option, fine dust filter is also available when used for fine dust cleaning.
